REFERENCE(S)

WASA-5179, 7 April 1959

1. Forwarded herewith are progress reports for UN Areas No. 2, 4 and 6 for the period 1 April 1959 through 31 May 1959. There are not yet any assets to report on in UN Area No. 6.

2. In the future [] all take over the agents now handled by [] so the latter can devote full time to collecting assets for our unrec'd UN Area shots.

3. Forwarded under separate cover are Activity Reports for ORLAUNCH-1 and ORLAUNCH-2.

15 June 1959

CONTINUATION OF DISPATCH	CLASSIFICATION SECRET	DISPATCH SYMBOL AND NO. Attachment #1 to HASS-5207
15 JUN 1959		
REPORT ON OW AREA NO. 2 FOR THE PERIOD 1 APRIL THROUGH 31 MAY 1959:		
<p>I. Progress</p> <p>A. Personnel: This area is still covered by GRIMPASTE alone while a suitable P/A candidate is being sought. The ORLAUNCH's are still being reported on here for administrative purposes.</p> <p>B. Status:</p> <ol style="list-style-type: none"> 1. GRIMPASTE continues to be a capable W/T agent with more than average initiative and interest in clandestine activity, and it is probable that in the event war occurs, before a suitable P/A can be located, he could be relied upon to operate satisfactorily as a singleton agent. 2. ORLAUNCH-2 was told to work up a new pocket-sized format for DR, cache and LS/RE reports in line with G/O suggestions. He submitted acceptable samples for DR and cache reports. His sample LS/RE report is smaller than expected, but this will be for the better, if air operations people will accept it. (The sample was submitted for approval and comments in HASS-5207, 6 June 1959.) 3. ORLAUNCH-1 is continuing his assessing efforts. He is arranging for ORLAUNCH-4/1 to provide PRQ information on members of the Fascist movement who may be reliable wartime co-workers. This information is in a sense "heavy work" for ORLAUNCH-1, but it may provide useful data for our files. Of course, recruitments or, as previously planned, briefings of former or prospective ORLAUNCH personnel will not take place. (Activity Reports for ORLAUNCH-1 and -2 are forwarded under separate cover.) <p>C. Security: GRIMPASTE continues to maintain a good sense of security and the ORLAUNCH's have presented no problems during the course of the reporting period.</p> <p>D. Training: GRIMPASTE participated in refresher training in Munich on 4 and 5 May and was satisfied with his progress. ORLAUNCH-2 was in Munich for refresher training from 16 through 18 May. [] polished agent's procedure with the RS-6 W/T set, equipment with which he is not as familiar as with the RS-1. [] believes agent will have no further difficulties. (See HSG 59-7058, 20 May 1959 for [] report.)</p> <p>E. Equipment:</p> <ol style="list-style-type: none"> 1. GRIMPASTE's Kitabachol RS-6 cache was examined and replaced with fresh equipment in a new and probably more secure location. A GM-50 hand-generator, batteries, and a second signal plan, etc., were buried in the same hole with the new RS-6. GRIMPASTE prepared a cache report, a copy of which will be sent to Headquarters for the vital documents repository. Though agent is no longer considered an asset for this other area, but rather only for OW Area No. 2, it is believed this third emergency set would make him more flexible if he were forced to leave his present location. His other two sets are both cached in OW Area No. 2. 2. A fresh RS-6 with battery was buried for ORLAUNCH-4/9 in the vicinity of his old equipment cached in 1955. All W/T agents continue to have a full complement of equipment. <p>F. Administration: GRIMPASTE's expenses are paid up to date; his salary of \$5 (plus \$20 due in July is paid on a yearly basis (30 June to 1 July of the following year). ORLAUNCH-1 and ORLAUNCH-2 were paid salaries and expenses through May 1959.</p>

CONTINUATION OF DISPATCH	CLASSIFICATION SECRET	DISPATCH SYMBOL AND NO. Attachment #2 to EASA-5207
-----------------------------	---------------------------------	---

15 JUN 1959

REPORT ON OW AREA NO. 4 FOR THE PERIOD 1 APRIL THROUGH 31 MAY 1959:

I. Progress

A. Personnel: This area is staffed by GRIFPAIR-6 (P/A); GRIFPAIR-15 (W/T trainee); GRIFPAIR-16 (Sub-agent) and GRAVINTRE-4 (trained W/T agent). GRIFPAIR-4 (Spotter) is included for administrative reasons.

B. Status:

1. GRAVINTRE-4 continues to be the only trained W/T agent in the area and would be GRIFPAIR-6's contact with us if war came. GRIFPAIR-6 and GRIFPAIR-16 should be trained in their duties by the end of 1959. GRIFPAIR-15 made satisfactory progress during a week of basic W/T training he underwent in early April, and should be a trained operator by the end of 1960.
2. GRIFPAIR-4 is continuing his assessments of individuals he has spotted since coming on with us.

C. Security: GRAVINTRE-4 supplied a picture of himself and gave more detailed information on his fiancée (reported in EASA-5189, 29 April 1959). It is presumed he is now married; his planned date was 18 April. The marriage is not expected to cause security problems.

D. Training:

1. GRAVINTRE-4 said at an early April meeting that he would be able to come to Munich for refresher training in July, but could not give the exact dates he would be available. He plans to have this date at an 18 June meeting.
2. GRIFPAIR-15 satisfactorily underwent his first week of basic W/T training. Because the time he could allot to this training was so short, he will be given a small tape recorder with tapes of recorded W/T to practice with on his own. He will also be given some blank reels of tape to record music, etc., for cover purposes.

E. Equipment: GRAVINTRE-4 has a full complement of W/T equipment in the ground. Some of the GRIFPAIR agents have been issued equipment.

F. Administration: Salary and expenses for GRAVINTRE-4, GRIFPAIR-4, -6 and -15 have been paid through March 1959. GRIFPAIR-15 has been paid salary and expenses through April 1959. This agent, however, has asked if he will be paid for the thirteen months that lapsed between his passing his W/T test and finally being recontacted. (In September 1957 when he passed the test - he was recruited two months previously - we agreed to pay him AS 250. a month from that time until he became a competent W/T operator; totals AS 3250.00.) We plan to renege somewhat on this agreement now because he did not actually train or work for us during this period. He will be offered AS 2500. which should be sufficient under the circumstances.

II. Planning

A. Both GRAVINTRE-4 and GRIFPAIR-15 plan to come to Munich for W/T training during either July or August.

B. Tradecraft training with all agents will proceed as rapidly as time schedules permit.

6-124-27/5

CONTINUATION OF DISPATCH	CLASSIFICATION SECRET	DISPATCH SYMBOL AND NO. Attachment #3 to XASA-5207
<p style="text-align: right;">25 JUN 1959</p> <p>REPORT ON US AREA NO. 6 FOR THE PERIOD 1 APRIL THROUGH 31 MAY 1959:</p>		
<p>I. Progress:</p> <p>A. <u>Personnel:</u> GHERFAIR-9 is the P/A for this area and GHERFAIR-15 the W/T operator. Neither has been identified to the other and this, of course, will not be done until the outbreak of war. GHERFAIR-3 is reported on here for administrative reasons.</p> <p>B. <u>Status:</u></p> <ol style="list-style-type: none"> 1. GHERFAIR-9 supplied PRQ information on GHERFAIR-19 (XASA-5395, 12 May 1959) and promised to do the same on his other prospective wartime co-workers: Identification 1, 2, 3 and agent's brother. Agent's German Contact Intelligence training combined with trademark given him by [redacted] now make him ready for advanced training. He should be fully capable of handling his responsibilities in early 1960. 2. GHERFAIR-15 is progressing rapidly in his W/T training and should be a competent operator before the end of the year. He supplied PRQ information on a co-worker of his who was a radio operator for the Luftwaffe Weather Service during the war. This was forwarded in XASA-5183. This individual will be kept on file in case another W/T candidate is needed. 3. GHERFAIR-3 continues to spot and assess. <p>C. <u>Security:</u> GHERFAIR-15 informed [redacted] that prior to his initial contact with the Americans GHERFAIR-3 had recruited him to perform so-called minor tasks. When this occurred GHERFAIR-3 told him that if he had additional questions he should ask GHERFAIR-11 about it. Some time later, and still before agent had met C/O, GHERFAIR-11 asked him if GHERFAIR-3 had told him to check in with GHERFAIR-11. GHERFAIR-11 told agent that he had suggested his name to GHERFAIR-3 as a possible recruitment prospect. Agent stated that he had had nothing more to do with GHERFAIR-11 and that he had not been in touch with him since he was recruited by C/O. He does not believe that GHERFAIR-11 would betray his knowledge of agent's clandestine relationships nor does he believe that GHERFAIR-11 knows of agent's present activities. Inasmuch as GHERFAIR-11 was recently released from his job at the gas station for exactly the same reasons that we terminated him, i. e., alcoholism, and has shown no signs of decreasing his liquor consumption, C/O is slightly skeptical of GHERFAIR-11's ability to keep his mouth shut. There is, unfortunately, nothing that we can do to alter this situation, but GHERFAIR-15 indicated that if Austria were occupied and GHERFAIR-11 became a dangerous security problem that that individual would disappear (C/O is positive that he did not mistake agent's meaning).</p> <p>D. <u>Training:</u></p> <ol style="list-style-type: none"> 1. GHERFAIR-9 received several hours of trademark instruction during the reporting period. Because of past instruction, we have given him and his contact intelligence background, he is ready for more advanced training. 2. GHERFAIR-15 received another week of W/T training. The training officer believes the progress he is making will see him a competent operator by the end of the year. For training at home, he has been given a small tape recorder with W/T tapes of various speeds; he has turned in his Instruct-O-Graph because it causes disturbances on neighborhood radios. (See XASA 59-7056, 12 May 1959, for training officer's report.) <p>E. <u>Equipment:</u> GHERFAIR-15 has located several prospective cache locations for W/T equipment which will be issued to him in early 1960. GHERFAIR-3 and -9 have no equipment.</p>
